DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a large rambling frame house of two and one half stories. The front portion is a rectangular block with a tall hip roof of slate that rises to a flat peak. To the rear is a large gabled wing. On the front are two hip roofed dormers, each with pilasters flanking the windows. The front facade consists of two bays plus a recessed bay on the northeast corner. Across the front is a large porch which extends around part of the south and north facades. This porch, supported by Doric columns, has a ballustrade and a pediment in front of the door supported by brackets with ornamental carving. Opposite the door is an oval window. There is another oval opening in the recessed corner bay on the second story. A Doric column supports the corner of the roof and a ballustrade encloses this small recessed porch or balcony. A row of dentils ornament the cornices of the porch, the roof, and the dormers.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This was the second house to be constructed on this block, and was built around 1907 by Edgar M. Skinner, whose father E. Milton Skinner built the first house on this block (101) around 1902. The Skinners were co-owners of this block of Oakley Street and were also the owners of E. M. Skinner, Wholesale Grocers. This house is more ornate than the later homes which were built on Oakley Street. It is a simplified version of the Queen Anne style.
